**5:40 PM** *Executive Session called to order. Vote reflected in regular meeting.*

**5:45 PM** Chris Smith (Union President for Local 2810) was contacted by Local 2810 Union regarding an article for Annual District Meeting to purchase security cameras. Local 2810 believes it is a change in working condition and believe the cameras need to be impact bargained. Local 2810 further requested the cameras do not have any audio recording or remote access.

Prudential Committee advised Local 2810 that the cameras would not be in the living quarters or dispatch area, only on the exterior of the building, across the front of the apparatus bays and down the sides of the apparatus bays, where the turnout gear is stored. In regards to audio concerns Local 2810 was advised the cameras would be purchased without the ability to listen or record audio. Also, remote access would be limited to direct Fire Department Administration.
